- **The Salmon** is a new attraction at Tjuvholmen, a stone’s throw from the Astrup Fearnley Museum. Learn about one of Norway’s largest export industries and enjoy a variety of salmon based dishes in an informal setting and with a beautiful view of the Oslo fjord.

- **Haynepromenaden (The Harbour Promenade)** opened in 2015 and stretches nine kilometres along Oslo’s waterfront. Interpretive stations describe local history at fourteen...
sites along the route. The Promenade ties the city together from east to west, turning different parts of town into a string of great experiences such as the Opera house, the new Munch Museum and the new National Museum (both opening in 2020), Aker Brygge and the Astrup Fearnley Museum at Tjuvholmen, the Bygdøy peninsula and the following (see map on next page):

☑ **Losæter** (14) is Oslo’s first city farm. In August anyone is welcome to join the community dinner every Wednesday night at 5 p.m., when people gather to harvest vegetables and then prepare for dinner.

☑ **Sørenga seawater pool** (12) is a popular recreational spot on the southernmost tip of Oslo’s brand new neighbourhood Sørenga. The area attracts big crowds on sunny summer days, and in winter ice bathing and sauna are popular activities.

• **Oslo Fjord Sauna / Sørenga Sauna and Swimming club (SBHA)**: The brand new Oslo Fjord Sauna (or “Skarven”) is an architect-designed sauna raft docked close to the Opera House, next to the charming Oslo Sauna Raft (or “Måken”) The latter was built from drift wood collected from the Oslo fjord, and both have solar panels on the roof. Watch video.

☑ **KOK Oslo** (9) has two sauna boats with space for ten people (“Morild”) / 14 people (“Aurora”- NEW in Feb. ’19!) located at Langkaia across from the Opera House. KOK Oslo offers warm, wood-fired saunas, refreshing ice baths and trips in the inner Oslo Fjord – all year round (except July). Both sauna boats have electric engines and solar panels on the roof.

☑ **SALT** (9) is a nomadic art project on Langkaia in Oslo, overlooking the Opera House. Experience concerts, art, sauna sessions, cold water pools, their driftwood café/bar and more. Their largest sauna holds 120 people. Sauna, good drinks and food all year long! (Opened Feb. 2017)

☑ **Vippe Oslo** (8) is a hip food hall located inside an old depo on Oslo’s waterfront.

☑ **Skur 13** (5) indoor skate park close to Tjuvholmen and the Astrup Fearnley Museum.
What's New in Oslo?

- **Kreftforeningens Vitensenter** (The Norwegian Cancer Society’s Science Centre): Through the science centre’s interactive installations, you can learn about cancer, how to prevent and treat it, and what technology can do to help, now and in the future. (Opened in February 2018.)

- **New ski simulator** at Holmenkollen ski arena and museum (opened in June 2017). Ever wondered what it feels like to fly down the Holmenkollen Ski Jump?

- New sculpture at **Ekebergparken Sculpture Park** in 2019: **Air burial (Oslo)** by Roni Horn (unveiled in May).

- **Kunsthall Oslo**: a non-profit art space in Bjørvika that presents international contemporary art with an emphasis on new commissions.

- Welcome to our refurbished **Oslo Visitor Centre** inside Østbanehallen food court.

- **Future Library**: a 100 years public artwork unfolding in Oslo by artist Katie Paterson. The project aims to collect an original work by a popular writer every year from 2014 to 2114 and to share them with the world only then. 100 books will be printed in limited-edition anthologies using paper made from trees planted in the Nordmarka forest specially for the project. The manuscripts will be held in a specially designed room at the new Deichman Oslo Public Library currently under construction in Bjørvika. Watch video: Meet the project manager of Future Library, Anne Beate Hovind.

- **Future Built** is a ten-year programme (2010-2020) with an aim to develop 50 pilot projects for climate neutral buildings and urban areas by 2020.

- **Green Visits Oslo Region**: Green Visits organizes professional visits for international delegations visiting the Oslo region. Learn about the different plants, companies, projects and research infrastructure that make Oslo region a green innovation leader.

- **Sun Mobility**: In collaboration with Oslo based architecture firm A-lab and the City of Oslo, the Møller Mobility Group developed a solar power pavilion, the Sun Tree, in 2017. The Sun Tree is an urban hub where you can charge everything from cellphones to computers and electric barbeques. You'll find a Sun Tree by SALT, on the harbor opposite the Opera house. Watch film about Sun Mobility on YouTube.

- **Nuart RAD**: A pilot project in areas adjacent to the Akerselva river, stretching 8,2km through the centre of Oslo. The project is part of Oslo Municipality’s five-year action plan for street art, which promotes graffiti and street art as part of contemporary art in public spaces. See also: VisitOSLO’s guide to urban art.

- **Vision of the Fjords**: After spending the winter season on the Oslo fjord, the eco-friendly sightseeing boat **Vision of The Fjords** has now moved back to its home base in the fjords.
What’s New in Oslo?

of West Norway – but according to plans, Oslo will get its first full-electric sightseeing boat from May 1st 2020, Legacy of the Fjords! And speaking of which, the three public Nesodden ferries departing from Aker brygge will also turn full-electric in 2019, as part of the Fossil Free 2020 project of Oslo’s public transport company Ruter. The first ferry will be rebuilt and ready in August, one in October and one in December.

STILL TO COME IN 2019

- **The Viking Planet** – Feel the Viking rush! Norway’s first interactive entertainment centre opens June 21st 2019 in Oslo, next to the City Hall, with many unique experiences based on Viking heritage! (Read about Norway’s top Viking sites on VisitNorway.com.)
- **Kulturstedet**: The Norwegian College of Dance has already moved into the buildings of this former margarine factory located in the Tøyen area. The property is currently undergoing extensive renovation work, but will evolve into a new cultural institution for music and performing arts in Oslo East, scheduled for completion in Autumn 2019.
- **Kistefos** is an industrial museum and sculpture park located in idyllic surroundings about an hours’ drive north of Oslo. In 2019 Kistefos is launching a new visual identity, unveiling three new sculptures and opening two new exhibitions – but the highlight of the year comes in September with the opening of the spectacular new 3-in-1 museum/bridge/sculpture, The Twist! (Travel tip: Hadeland Glassworks, one of Norway’s most visited tourist attractions, is located in the same area, about a 10 min. drive northeast of Kistefos. Or head one hour south of Kistefos, to the museum and cobalt mines of Blafarveverket, for some more mix of art, culture and outdoor activities.)

COMING IN 2020 – THE BEST IS YET TO COME!

The Fjord City is a programme to renew Oslo’s waterfront. The plans cover 10 kilometres from east to west of Oslo’s city centre, where shipyards, ports and highways have given way to museums, art venues, office spaces, apartments and public parks. Oslo’s new opera house, the Barcode high-rises and Tjuvholmen with the Astrup Fearnley Museum have already been built here, and in 2020 three new iconic buildings are scheduled to open:

- **Lambda - The new Munch Museum** – A new home for Edvard Munch’s art in Oslo!
