VISIT THE LOUVRE OF CHILDREN’S ART

At The International Museum of Children’s Art in Oslo, you can see the world through children’s eyes and understand how children’s art is a carrier of aesthetic values. The museum views children’s art as a living part of folk art and also an important element of our national and universal culture. The right to have and preserve one’s own culture is an accepted principle when referring to nations or parts of a population.

Welcome to Oslo

So wonderful that you have chosen to explore our city.

Oslo is a modern and diverse city in constant growth – new neighborhoods are emerging and old ones are being developed and transformed.

The compact city center is easy to explore, both on foot, by bike or public transport. More than half of Oslo is covered by forests and parks, which makes Oslo a green city in the summer and a ski destination in the winter.

Oslo is filled with cultural and culinary highlights. If you want to discover the capital’s new cultural buildings and other exciting things happening in the fjord city of Oslo, a walk along the Harbor Promenade is recommended. Start in Bjørvika, where you will find the MUNCH museum, Edvard Munch’s spectacular new home, and the city’s new main library Deichman Bjørvika. Further west by Aker Brygge is the new National Museum, the Nordic region’s largest art museum, which opens on 11 June 2022.

No other city in Norway has anywhere near as wide a choice of restaurants as Oslo. Here you will find everything from exciting street food and traditional Norwegian food to world-class gourmet restaurants.

Enjoy discovering your Oslo!

Also visit the Opera Shop or enjoy refreshments and a meal overlooking the fjord.

We have guided tours in Norwegian and English that provide insights into what happens behind the scenes before the curtain rises.

Alpine skiing and snowboarding
Just outside the city centre is Skimore Oslo, a large ski resort with 18 runs and 11 lifts open from November to Easter. Skimore Oslo offers ski courses and rental of skis, snowboards and associated equipment.

Cross Country Skiing
In the woods surrounding Oslo there are 2,700 kilometres of prepared cross country trails with wonderful hiking opportunities for both beginners and experienced skiers. The nearest trails are only 30 minutes from Oslo city centre. Skis and equipment can be rented at Skimore Oslo.

Tobogganing
Kortrekkeren is Oslo’s largest and most popular toboggan run — 2 kilometers long with a fall height of no less than 255 meters. Subway line 1 carries you from the bottom of the hill and up to the top again.

Ice skating
In Oslo you will find many great ice rinks. Oslo Municipality is responsible for many of these, including in Spikersupper and Frogner Stadion with skate rental.

Winter all year round
At Lørenskog, 17 minutes from Oslo Central Station, is SNØ, a large, indoor winter arena where the winter wonderland never ends. Here you can snowboard, alpine ski and cross-country ski all year round, or try ice climbing on the Mammut-wall. Equipment and clothing can be rented at the facility.

WINTER ACTIVITIES
If you’re visiting Oslo in winter, why not combine skiing and ice skating with culture, food and shopping?
SUMMER ACTIVITIES

Oslo has up to 19 hours of sunlight in the summer, and with the fjord and Oslo forest within easy reach there’s always something exciting to do.

**Climbing**

Skimore Oslo and Oslo Klatrepark are large climbing parks 30 minutes from Oslo city center. Both parks have a variety of trails adapted to all levels and ages, as well as many hundred metres of zip-lines.

**Cycling**

Experience Oslo from the bike seat! The city bikes from Oslo Bysykkel are an easy and affordable alternative when you want to see as much of the city as possible on your own. If you want to move out of the city centre and into the forest, it is a good idea to rent a bicycle from Skimore Oslo. Viking Biking offers rental of city bikes for private groups.

**Boat trips and island hopping**

A boat trip is the best way to experience the Oslo Fjord, and just a few minutes by scheduled boat from the centre there are a number of islands with great swimming and picnic opportunities. The sea route can also be used when exploring some of the city’s museums. The Bygdøy and Munch ferries are regulars on the fjord.

**Walking tours in the city and surrounding woods**

The harbor promenade is located along the Oslo Fjord from Sørenga to Frognerkilen, revealing the evolution of “The Fjord Town” with exciting new architecture. A hike along Akerselva offers both nature, history and culture in the woods around the city. You can choose popular routes from Sognsvann or Frognerseteren, or walk far into the forest. Maps and good tips for short or long treks are available at DNT in Storgata 3 and Sørengaia 122.
